Experience

Frontend Developer • FutureSmart AI

Mar 2023 - Present

- Developed Chatbot UI using NextJS with tailwindcss, enhancing user experience and facilitating efficient communication.
- Managed and maintained Vector Database in Pinecone, ensuring smooth data retrieval and management.
- Implemented an OpenAI-based banking application chatbot, providing personalized and efficient customer support.

Java Developer Intern • Octanet Services Pvt Ltd

Oct 2023 - Dec 2023

Developed RESTful APIs using Spring Boot, enhancing functionality and improving performance. Implemented ReactJS for front-end development, resulting in a user-friendly and responsive interface. Employed MVC architecture to ensure efficient data management. Utilized MySQL database for seamless data storage and retrieval.

Web Developer • LetsGrowMore

Oct 2021 - Nov 2021

- Implemented a TODO LIST Web App utilizing GitHub hosting, streamlining task organization and enhancing productivity.
 - Developed a REACTJS web application that seamlessly called REST API and presented information in a visually appealing card format.
 - Designed and constructed a Student Result Management System web application, streamlining result storage and retrieval processes for improved efficiency.
-

Education

Bachelor of Technology - BTech • DKTE'S Textile & Engineering Institute, Ichalkaranji

Jan 2021 - Present

Computer Science and Engineering • Grade: 7.8

Projects

Digi Bus Pass

Dec 2023 - Jan 2024

DKTE'S Textile & Engineering Institute, Ichalkaranji

- Developed an online bus pass registration application to streamline the process for students experiencing difficulties with manual registration and renewal of bus passes in colleges
- Implemented a user-friendly interface to enable students to save time by easily renewing their bus passes online
- Reduced wait times by eliminating the need for students to stand in long lines for hours at counters in college

Online Crime and Report Management

Dec 2023 - Dec 2023

DKTE'S Textile & Engineering Institute, Ichalkaranji

- Developed an online crime and report management system using Spring Boot, revolutionizing the way crimes are reported and tracked.
- Empowered users to submit crime reports, amplifying user engagement and fostering community participation.
- Spearheaded the implementation of cutting-edge features, enabling users to conveniently view and edit their submitted reports for an enhanced user experience.
- Leveraged the power of Spring Security to implement robust user authentication and authorization, guaranteeing secure access to the system.

Jan 2023 - Feb 2023

MERN-E-Commerce

DKTE'S Textile & Engineering Institute, Ichalkaranji

- Developed an e-commerce web application utilizing ReactJS, Material UI, Context API, and React-router-dom
 - Implemented user authentication and authorization using JWT for enhanced security
 - Designed an admin dashboard to efficiently manage products, orders, and users, while displaying relevant statistics
 - Created a seamless payment gateway to facilitate smooth transactions
 - Developed a mail service for effective communication with customers
 - Implemented a forgot password and reset password functionality for enhanced user experience
 - Created product listing and search features for easy navigation and discovery
 - Designed and developed product details and reviews sections for comprehensive information
 - Implemented cart management functionality to allow users to add, remove, and manage their selected items
 - Provided an order history feature for users to conveniently track their previous orders.
-

Achievements and Awards

SIH'23 Finalist

Dec 2023

DKTE'S Textile & Engineering Institute, Ichalkaranji

- Developed and implemented innovative solutions as part of the Smart India Hackathon, an esteemed nationwide initiative.
 - Successfully collaborated with a diverse team of students to tackle pressing problems that impact our daily lives.
 - Utilized analytical thinking and problem-solving skills to identify and address key challenges.
 - Demonstrated exceptional coding skills to create efficient and effective solutions.
-
